NEW YORK STATE

As witnessed by legal counsel retained by Thordsen Customs LLC and in cooperation with legal counsel representing The Gun Shop at McGregor's in Lake Luzerne, New York. Authorities representing New York State Police Division Counsel's office and the Office of the Attorney General of the state of New York verbally stated that the FRS-15 Rifle Stock, when installed on a semiautomatic centerfire rifle with **NO OTHER RESTRICTED FEATURE** listed in the New York Safe Act, **DOES NOT** meet the definition of an "assault weapon" and therefore **DOES NOT** require mandatory registration.

In order to comply with the NY Safe Act the conversion from a pistol grip to an FRS-15 stock should not be readily convertible or easily able to be reversed back to the pistol grip configuration. Although it is not required by law, a method demonstrating permanence (as suggested by New York authorities) is to fill the screw head or cavity with epoxy, silicone based caulk, or other permanent sealants.
